Who is the training suitable for?

Qualification in English is for you who work as employee or entrepreneur in domestic services in Finland and use mainly English at work sites in everyday communication. You have versatile work experience of domestic services. It is also required that your employer has agreed to tie an apprenticeship training contract.

In student selection, priority is given to applicants who have not completed a vocational qualification or university degree, unemployed job seekers and upper secondary school graduates.

To complete the qualification, you must have the opportunity to make versatile assignments during your internship or at your workplace.

Content of the training

Home cleaning services, 45 cp

Distance and local learning opportunities

At the beginning we make you an individual study plan and ensure that this qualification is right for you.

Most of the education is conducted at your workplace in daily assignments. In addition, education is supported by simultaneously both online and classroom studying, which gives you the freedom to choose most suitable way to attend lessons. Studies include assignments and instructional videos, and you take them at a self-directed pace.

Education also supports the development of Your Finnish language skills.

Competence demonstrations are conducted at your workplace during daily assignments. The demonstration is assessed based on how well you carry out given tasks. Trainer and workplace representative make the assessments together.

If your competence is found sufficient enough, You can complete the qualification by conducting only competence demonstrations.

For apprenticeship training, you need an employer in the field with whom an apprenticeship contract can be concluded. Unconditional requirement for starting education is employment in Finland in cleaning services and minimum 25 h/week.

More information about apprenticeship education (in Finnish).
